- Bold & stylish feature piece
- Long-life galvanised wire
- Suits 30-50mm pebbles or stones
- Available at selected Bunnings stores only - Please check with your local store.

CREATE A MODERN LANDSCAPING FEATURE

Whites Gabion Rock Box offers a bold and stylish feature for any patio and garden when combined with decorative plants and pebbles or stones.

Made from galvanised wire for long life, it is a strong and fully welded steel box ready to fill, no assembly required. We recommend filling with pebbles or stones that are at least 30mm in size, such as, the Bright White pebbles for a modern urban look.

Ideal for medium size feature plants to be potted in the centre, these are available in:

- Square (420mm x 420mm wide and 385mm high)
- Round (430mm diameter and 385mm high)

Handy Hints:

- Place the rock box in the final position and check stability before filling with pebbles or stones
- Add a potted plant into cavity or fill directly with soil
- To fill with 35-50mm pebbles or stones, we suggest using 4 x 15kg bag
