

## Vegie Panels

Vegie Growing / Vegie Frames & Panels

- Train and support growing plants or vegetables
- Features interlocking hooks
- Quick and easy to set up
- Spiked feet fix securely into soil

### QUICK AND EASY VEGIE PANELS

Whites **Vegie Panel** is an easy way to train and support growing climbing plants in your garden or pots. It features interlocking hooks that allow you to create various grow cage designs. Simply push the spiked feet into the soil.

Available in a Powder coated Black finish and in two sizes, 95cm and 110cm.

Whites **Grow Bag Frame** is a great solution for growing climbing plants. Whether you want to save time or save space or both, it provides a quick and easy solution ideal for terraces, balconies, patios, greenhouses, gardens or decks.

The all-in-one kit features a light, galvanised steel frame that holds three built-in climbing supports and a poly bag at its base.

The frame provides a strong vertical plant support system which is portable, even when planted. The steel frame is easy to assemble and can be flat packed for storage.

The side frames and cross-bars are manufactured from 6mm diameter recycled galvanised mild steel wire, and three looped ties are made from durable plastic strapping.

The reusable grow bag is made from tough heavy duty polyethylene and has a 25 Litre capacity.

## PRODUCT SPECIFICATIONS
