

General Protection Adhesive Foam

Surface Protection / Protective Foam

- Anti-vibration
- Packing Protection
- Wall and Noise insulation

Whites **Adhesive Foam Rubber Roll** is ideal for noise reduction and provides anti-vibration for pipes and air conditioner ducting. Made from quality high density foam with fibreglass reinforced adhesive backing.

Whites **Adhesive Protector Foam** is a high-density foam roll with an adhesive backing. It adheres to any smooth, clean surface, such as concrete, timber and steel. It's ideal for use on garage walls and pillars as a bumper to protect car doors from dents and scratches. With a thickness of 4mm, it's also suitable for floors as anti-skid and surface protection. Ideal for car door protection in tight spaces. Made from recycled material.

Whites **Self-Adhesive Protection Foam** offers a quick and easy way to protect against bumps and scratches. The strong adhesive covers the entire back surface to stick any clean surface. Ideal for workshop, warehouse, home and office; for packing protection, wall and noise insulation etc. Available in Black.
