

Protective Cones & Rings

Plant Protection / Tunnels & Covers

- Protects against weather & pests
- Quick & easy to set up
- PVC clear cover
- For outdoor use

IDEAL GREENHOUSE FOR PLANTS AND VEGETABLES

Whites **Slug Protection Ring** protects seedlings against pests such as slugs and snails with its inverted sides. It is pet and child-friendly, simply place it around seedlings, no need for harmful pellets. Its UV stabilised green translucent colour blends in with your crops. Made from PET material, the top ring diameter measures 250mm including collar whilst the bottom ring diameter is 140mm. Available in packs of 5.

Whites **Greenhouse Grow Cones** provide ideal growing conditions for seeds, seedlings and cuttings. Shields against rain and frost damage, while the top opening allows for easy watering. Offers protection from pests such as birds, slugs, and snails. Easily installs in seconds. Secure with Whites Tent Pegs or Turf Pegs.
