

Chain Mesh

Mesh & Netting / Dog & Boundary Fencing

- Heavy duty
- Wire Size of 2.50mm is the generally accepted standard
- Mesh size - 50mm or 60mm depending on local requirements in each state

CHAIN WIRE OR CHAIN LINK FENCING

Whites Chain Mesh, also referred to as chain wire or chain link, is produced in a variety of mesh sizes and qualities. It is normally erected along a fence line of tubular steel posts.

Heavy duty wire and a tight flexible weave pattern makes Chain Mesh the right choice for tennis courts, industrial fencing, and for enclosing large or aggressive dogs.

Product Data Sheet

PRODUCT SPECIFICATIONS

Code	Product Name	Length (m)	Height (mm)	Aperture (mm)	Finish	Wire Diameter (mm)
17606	Chain Mesh	20	1800	60	Std Galvanised	2.5
17605	Chain Mesh	20	1500	60	Std Galvanised	2.5
17604	Chain Mesh	20	1200	60	Std Galvanised	2.5
17603	Chain Mesh	20	900	60	Std Galvanised	2.5
17306	Chain Mesh	20	1800	50	Std Galvanised	2.5
