RIGID LIGHTWEIGHT FRAME

Whites Framed Panel is a steel square-tubed framed wire mesh panel.

The rigid frame houses 3mm wires with 50mm x 50mm aperture. It is DIY friendly, no welding required.

With its all-in-one self-supporting construction, it's easy to use and build with and is versatile for the following uses:

- climbing plant trainers in the garden
- box trailer cages and hanging tools in the shed
- quick animal cages and much more

Handy Hint:

- To view our entire range of mesh and netting click on the 'shadow board' image in the photo gallery at the top of this page
