

Grid Mesh

Gardening Accessories / PVC Netting & Barrier Mesh

- Heavy duty & high tensile
- Suitable for plant support or temporary fencing
- Easy to handle, can be cut to size
- Available at Bunnings New Zealand only. Please check with your local NZ store.

MULTI-PURPOSE AND HEAVY DUTY MESH

Whites Multi-Purpose Grid Mesh is a heavy duty plastic mesh with high tensile strength.

Suitable for:

- temporary fencing between posts
- growing climbing vegetables and flowers along a fence line
- robust anti-slip solution for slippery surfaces; it provides a safe and secure anti-slip walking surface for all wooden surfaced boardwalks, decks, bridges and marine access ways, in all weather conditions.

Made from UV resistant polypropylene that's designed for the harsh New Zealand outdoors.

It's easy to handle and install, can be easily cut to size with heavy scissors, snips or secateurs.

Measures 900mm high on a 5m roll with a 30x30mm aperture.

Staple against the shoulder of the cross on the grid mesh to reduce movement as shown on 2nd photo above.
