

Concreter's Starter Bars

Concreting / Steel Bar

- 1800 lengths
- Ideal starter or joiner bar
- Also available in hot dip galv

COLD-ROLLED STEEL

Whites Ribbed Bars and wire are commonly used to tie masonry or concrete walls to slabs or footings.

The ribbed profile improves bonding to concrete and minimises concrete cracking, in comparison to smooth wire profiles.

Handy Hints:

- For tips on concreting, see our information sheets above or [click here](#) to go to our videos page and scroll down to "[Laying a Concrete Slab](#)".
