Fencing Tools & Accessories / Fencing Clips & Tools

- Pliers and clips for securing netting to line wires
- Special pliers with groove to hold all netting clips
- PVC coated handles for comfort
- Galvanised steel 'C' Clips in packs of 500

NETTING PLIERS

Whites Netting Pliers are designed to make securing Whites C-style Netting Clips safe, neat and easy. The 16mm clips suit the Red handle pliers whilst the 19mm clips suit the Green handle pliers.

The pliers feature a special groove to hold the netting clip in place before securing. To secure, squeeze the handles and the clip 'ties' the netting to the line wire.

With a soft rubber handle, these pliers are easy to use and come with a pack of bonus clips to get you started. With a strong durable galvanised coating, the clips are easy to use and will suit up to 2.24mm diameter line wire and netting.
