

## Oxy-Shield® Podium Rings

Oxy-Shield / Oxy-Shield® Plant Rings

- Decorative garden bed feature in three sizes
- Use singly or in multiple configurations
- Unique built-in interlocking system
- Oxy-Shield Landscapers Steel
- Develops a rich, earthy patina
- Resists corrosion - durable long-lasting steel

### DECORATIVE GARDEN FEATURE WITH NATURAL EARTHY TONES

#### Personalise your garden space with multiple configurations.

Whites Oxy-Shield Podium Landscape Rings add an architecturally inspired element to your garden. Ideal for garden beds, there are three ring sizes that can be used on their own to highlight your garden bed. Alternatively, the rings can be used in multiple configurations for maximum effect and creativity.

#### About Oxy-shield

Oxy-Shield is a specially formulated landscaping steel designed to impart a decorative rust-look without the inherent degradation of regular steel. The surface oxidises to form a protective coating resistant to corrosion and flaking - a durable long-lasting steel.

Rustic tones will further develop and enhance over time; to accelerate the effect, spray regularly with a fine mist of water. With a rich, earthy patina - a favourite amongst landscapers, the decorative finish blends effortlessly into any backyard or courtyard setting and with traditional and modern gardens.
