

Oxy-Shield® Tree Ring

Oxy-Shield / Oxy-Shield® Plant Rings

- Ideal for small trees in gardens & lawns
- Protects tree trunks
- Unique built-in interlocking system
- Oxy-Shield Landscapers Steel
- Develops a rich, earthy patina
- Resists corrosion - durable long-lasting steel

DECORATIVE GARDEN FEATURE WITH NATURAL EARTHY TONES

Bring new life and a touch of zen to your outdoors.

Whites Oxy-Shield Interlocking Tree Ring is easy to install - just tap in place and lock together, and suitable for small and large trees, interlocking tabs can make larger tree rings. Rings can also be added once tree is already planted.

About Oxy-Shield

Oxy-Shield is a specially formulated landscaping steel designed to impart a decorative rust-look without the inherent degradation of regular steel. The surface oxidises to form a protective coating resistant to corrosion and flaking - a durable long-lasting steel.

Rustic tones will further develop and enhance over time; to accelerate the effect, spray regularly with a fine mist of water. With a rich, earthy patina - a favourite amongst landscapers, the decorative finish blends effortlessly into any backyard or courtyard setting and with traditional and modern gardens.

PRODUCT SPECIFICATIONS

Code	Product Name	Height (mm)	Diameter (mm)	Finish
