

Solar Garden Sentinel

Plant Protection / Animal Repellers

- Adjustable spray angle up to 300??
- Up to 10m distance
- Time & sensitivity setting
- Install in minutes
- Simple garden hose attachment

MOTION ACTIVATED ANIMAL DETERRENT

Whites Garden Sentinel Solar is designed to protect your garden and crops safely and humanely. Keep unwanted animals from your backyards, ponds and other open areas.

The smart infrared sensor activates a three-second burst of water with an adjustable angle, range and sensitivity. It can also be used for watering.

Complete with garden hose attachment and optional eye and beak labels, simply attach to your garden hose and the Garden Sentinel Solar is ready to go to work.
