

Garden Up® Mix'n'Match Classic Pot

Planter Pots / Garden Up® Mix'n'Match

- Quick and easy to set up
- Water-smart design
- Choice of three hooks to suit different wall surfaces
- BPA free
- Australian designed

PLANT WHAT YOU WANT, WHERE YOU LIKE!

Garden Up Mix'n'Match gives you the freedom to grow your plants anywhere.

Turn any wall, fence or vertical space into a living, growing Green wall or edible garden. Personalise your backyard or balcony with your choice of edible crops such as strawberries, herbs, salad leaves or an attractive floral display.

With a choice three classic hooks, Whites Garden Up Mix'n'Match Classic Pot can be mounted on all substrates including walls, fences, slat screens and wire frames. For hanging on a wire frame, use Garden Up Mix'n'Match Mesh Grid as an easy, effective solution. Simply add more, vertically or horizontally to expand your living Green wall.

It features water-smart design with an integrated saucer to prevent over-watering and conserve excess water. Perfect for growing vegetables as they are BPA free.

Compatible hooks: 18096 for walls and fences, 18097 for slats and similar hanging, 18082 for wire frames.

Handy Hints:

- Use a premium quality potting mix (Australian Standards logo with four ticks) and water regularly.
- Depending on your plants, it's best to maximise the amount of natural light by positioning the plants in a sunny, north facing position.
- Always ask your gardening expert for the best plant varieties to suit your region and time of year.
