BRING YOUR WALLS TO LIFE!

Turn any wall, fence or vertical space into a living, growing Green wall or edible garden.

Personalise your backyard or balcony with your choice of decorative floral displays or edible crops such as herbs, salad leaves and strawberries. Garden Up Wall (Vertical Garden Kit) softens hard features and improves air quality.

Whites Garden Up Wall's modular grid accommodates most spaces, small and large. Simply add more panels, vertically or horizontally to expand your living Green wall.

Pots feature water-smart design with an integrated saucer to prevent over-watering and conserve excess water. Perfect for growing vegetables as they are BPA free.

It is supplied as a complete set including the modular grid, which is made from Black PVC powder coated wire mesh panel; three pots, which are made from Charcoal PP plastic and six hooks, which are also made from 5mm Black PVC powder coated soft tensile wire.

Handy Hints:

- Use a premium quality potting mix and water regularly.
- Depending on your plants, it's best to maximise the amount of natural light by positioning the plants in a sunny, north facing position.
- Always ask your gardening expert for the best plant varieties to suit your region and time of year.
