

Garden Up® Mix'n'Match Herb Pot

Planter Pots / Garden Up® Mix'n'Match

- Quick and easy to set up
- Ideal for herbs and smaller plants
- Water-smart pot
- BPA free
- Australian designed

PLANT WHAT YOU WANT, WHERE YOU LIKE!

Garden Up Mix'n'Match gives you the freedom to grow your plants anywhere.

Turn any wall, fence or vertical space into a living, growing Green wall or edible garden. Personalise your backyard or balcony with your choice of edible crops such as herbs, salad leaves and strawberries or an attractive floral display.

Whites Garden Up Mix'n'Match Herb Pot can be mounted on wire frames or trellises. For hanging on a wire frame, use Garden Up Mix'n'Match Mesh Grid as an easy, effective solution. Simply add more, vertically or horizontally to expand your living Green wall.

It features water-smart design with an integrated saucer to prevent over-watering and conserve excess water. Perfect for growing vegetables as they are BPA free.

A complete range of Garden Up Mix'n'Match Hooks for your pot is also available. Compatible hook: 18099 on wire frames.

Handy Hints:

- Use a premium quality potting mix (Australian Standards logo with four ticks) and water regularly.
- Depending on your plants, it's best to maximise the amount of natural light by positioning the plants in a sunny, north facing position.
- Always ask your gardening expert for the best plant varieties to suit your region and time of year.
