

Retain-iT® Sleeper Stakes

Retain-iT / Retain iT® Staking Solutions

- Secures timber borders for garden beds, vegetable patches, sandpits and play areas
- Can be hammered directly into the ground
- Can be screwed or nailed directly into the timber

QUICK AND EASY STAKING SOLUTION

Whites Sleeper Stakes are easy to use staking solution for timber sleepers.

These are available in flat or corner configuration for single sleeper height garden beds and edging. Simply lay out your sleepers, drive the stake into the ground, and nail or screw through pre-drilled holes to secure your timber sleeper border.
