INTEGRATED SYSTEM FOR GROWING PLANTS AND VEGIES

Grips as it grows

Whites Grip & Grow **Freestanding Panel** is an integrated veggie frame system for growing climbing vegetables and plants. The ribbed bar provides additional grip to hold plants as they grow. Grip & Grow is robust and durable enough to re-use year after year. Easy to set up, simply push the feet into the ground.

Available in Designer-look rustic or Hot-dip galvanised finish.

Whites Grip & Grow **Freestanding Curved Veggie Frame** is an integrated veggie frame system for growing climbing vegetables and plants. The ribbed bar provides additional grip to hold growing vines. It comes with hook and loop ties, which support the plant as it grows. It features a curved frame design that will support heavier produce. Ideal for pots or as full enclosure. Easy to set up, you can simply push the feet into the ground. Made from durable galvanised steel for a longer life, Grip & Grow is robust and durable enough to re-use year after year.

- Push feet into the ground for set up.
- Evenly push feet at least half way into soil.
- Placement: Ensure plant is planted within the frame.
- Includes 2 - 4 hook & loop ties. Span between curved wings for extra plant support.

Whites Grip & Grow **Frames** are a modular integrated system for growing climbing vegetables and plants. The ribbed bar provides additional grip to hold vines as they grow. Made from durable galvanised steel for a longer life, Grip & Grow is robust and durable enough to re-use year after year. Available in two styles:

Veggie Frame - featuring wire legs so they simply push into the ground and you're ready to grow in large pots or veggie gardens

Wall Frame - ideal for training climbing plants to create a green-cover over fences and walls. Easy to mount using Whites Panel Fixing Clips (12390), Whites Panel Mounting Clips (12392), or Whites Trellis Mount Kit (18238)
