

Flower Mesh

Mesh & Netting / Garden & Trellis Mesh and Netting

- For growing sweet peas, and trellising
- Can be used for plant protection
- Suitable for temporary animal enclosures
- Available in galvanised wire and decorative green PE coating

PROTECTS PLANTS WITHOUT OBSCURING THEM

Whites Flower Mesh is ideal for growing sweet peas and as trellising for training plants. The 50mm (2") aperture protects plants without obscuring them. It is also strong enough to be used for plant protection and temporary animal enclosures.

Flower Mesh comes standard in 30m packs, and is also available in convenient 5m and 10m packs for smaller jobs.

Handy Hint:

- To view our entire range of mesh and netting click on the 'shadow board' image in the photo gallery at the top of this page

Product Data Sheet
