

Plant Protection Tunnels

Plant Protection / Tunnels & Covers

- Promotes plant growth
- Protect seedlings from birds/animals
- Re-usable

CREATES AN IDEAL GROWING ENVIRONMENT

Whites **Protective Shade Grow Tunnel** provides a shaded environment for plants during hot summer months while also protecting plants against insects, birds, animals and pests.

It features an easy to install knitted cloth cover that can simply be lifted for easy access to your plants.

When built, the tunnel stands approximately 500mm from the ground to the highest point of the roof.

Ideal for cucumbers, squash, beans, root vegetables and annuals, the kit includes:

- 5 arch support sections
- 1.5m x 5m* knit cloth cover (* measurement of the fabric when laid flat)
- 10 cover clips
- 2 ground pegs

Whites **Insect Resistant Grow Tunnel** filters sunlight, allows air and rainwater to pass through while also protecting plants against insects, birds, animals, pests and harsh weather.

It features an easy-to-install transparent fine mesh cover that can simply be lifted for easy access to your plants.

Ideal for leaf vegetables, strawberries and early season tomatoes, the kit includes:

- 5 arch support sections
- 1.5m x 5m* fine mesh cover
- 10 cover clips
- 2 ground pegs

* Measurement of fabric when laid flat
