- Robust and re-usable
- Tough vertical support
- Available at selected Bunnings stores only. Please check with your local store.

PERFECT FOR CLIMBING PLANTS

Whites Spiral vegie Stake is a quick and easy solution for supporting growing climbing plants such as tomatoes, beans and cucumbers. The spiral design saves space and provides a tough vertical support.

Simply stake into the ground and you're ready to grow. It is robust and durable enough to re-use year after year.

It is 1.5m high and 8mm thick.

Grips as it grows

Whites Grip & Grow Spiral Stake features a cleverly designed and sturdy growing path for climbing plants.

The spiral design saves space and provides a tough support. The ribbed bar provides additional grip to promote plant growth and hold vines as they grow.

Simply stake into the ground and you're ready to grow.

Made from durable galvanised steel for a longer life, Grip & Grow is robust and durable enough to re-use year after year.

Handy Hint:

- The base of the spiral has a flat section, which allows you to use your foot and body weight to more easily push the spiral into the ground.
