

Adjustable Tree Ties

Plant Tying / Tree Tying & Support

- Strong, reusable & flexible
- No knots and no tying
- Ideal for garden, home & craft use

TREE TIE FOR PLANT SUPPORT

Whites **Adjustable Tree Tie** is soft enough to protect young trees yet retains its strength to hold firmly against stakes. Adjustable tie allows for trunk expansion. Ideal for use in your garden or home, it's a quick and easy to use product. Available in Green to easily blend into your garden.

Whites **Poly Woven Shrub Tie** provides a strong and durable support that is gentle on growing trees. Made from a woven UV-stable poly material, use with garden stakes to steady small to medium size trees. Available in 24mm width on a 60m roll.

Whites **Rubber Tree-Tie** is a heavy duty, adjustable and reusable tree tie. Ideal for securing larger plant life. The interlocking mechanism enables the plant to be securely fastened in seconds. Available in 600mm length and in Black.
