

Pre-Assembled Kit

Planter Pots / Garden Up® Irrigation Kits

- Water up to 15 plants at once
- Add a timer for automatic watering
- Suits Garden Up Freestanding and Wall
- Installs in minutes

WATER AND TIME-SAVING SOLUTION

Instant Dripper Line Watering System

Whites Pre-Assembled Irrigation Kit is a simple solution that is easily incorporated into both Garden Up Freestanding and Garden Up Wall systems as a great water and time-saving solution. You can even add a timer for automatic watering to allow you to multi-task.

It's an ideal watering system for vertical gardens, vegie patches and raised garden beds.

Installs in minutes!

- To suit Garden Up Wall vertical garden kit - the three pre-assembled branches fit neatly across the three pots.
- To suit Garden Up Freestanding vertical garden kit - add two more pre-assembled branches (included in the pack) and fit neatly across five pots.
- Simply attach to a regular garden tap using the tap adaptor included.

Handy Hints:

- To extend the reach of the Irrigation Kit, replace the first 130cm section with a longer length of vinyl tubing (6mm).
- Avoid over-pressuring the system by not turning the tap to full.
- Click on the instructions image in the photo gallery above for further information.
