Australian family owned, down to earth, no nonsense

Whites Group has been listening and responding to the needs of Australian farmers and fencing contractors for over 40 years. Continuously developing better fencing ideas proven to work on the farm, Whites Group has pioneered a number of original ideas like Stockpost Ute Pack, designed to get the job done with a minimum of fuss.

Australian owned and operated, Whites Group is a family business with its roots strongly embedded in steel, wire and fencing products since 1977. Today, Australian manufacturing is at the heart of Whites Rural's wire range made in Albury NSW, signifying a deeper, long-term commitment to the needs of rural Australia.

STOCKPOST®

Trusted, tried & true.

Consistently rolled from specially produced high grade steel, Stockpost is a premium fence post – strong and reliable.

- ❯ **High strength, high consistency**
- ❯ **Coatings that withstand the test of time**
- ❯ **Innovative ground mark**
- ❯ **Hole alignment that's straight up**
- ❯ **Easy to drive**

Stockpost is available in black bituminous dipped coating, providing a tough outer barrier, or hot-dipped galvanised to meet the Australian Standards for optimum protection.

Featuring consistent ground marks and centre marks for accurate height positioning; precision hole alignment & spacing for a uniform fence from the first to the last post; and uniformly cut end-points to drive in straight and easy.

• Australian Innovation
• Engineered for Consistency • Coatings that Last

STOCKPOST® XL

Meet Stockpost's **BIG** brother.

Stockpost XL is hot rolled from the same quality raw material as Stockpost, so you know it's good.

SMARTER
3 equal fins for all around stability and more holes per post (ideal for feral fencing). A great alternative to timber posts.
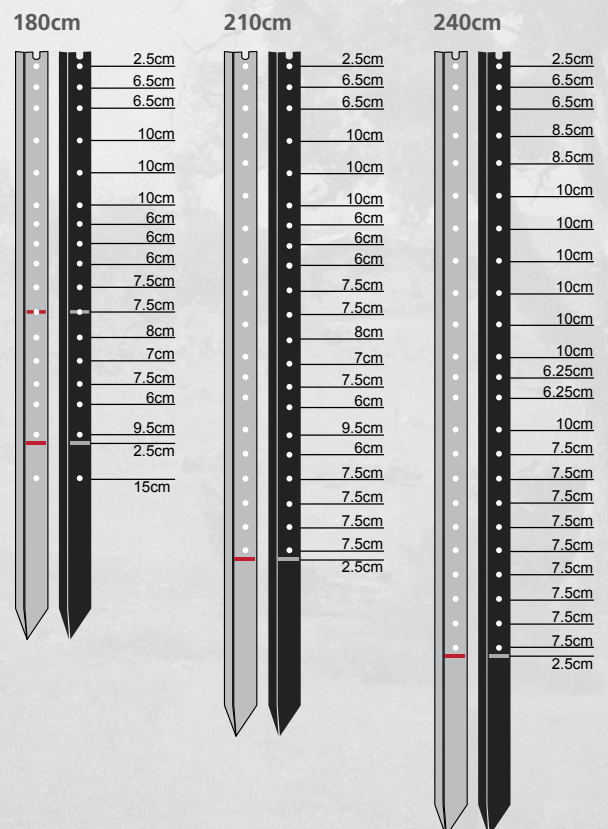

FASTER
Packed in a faster fencing Ute Pack sling for easy access, easy handling.
4:1 ratio – 200 Stockposts plus 50 Stockpost **XL**s provides a typical fencing ratio.

STRONGER
Hot rolled from the same quality raw material as Stockpost, independently NATA tested.

STOCKPOST® END ASSEMBLY

A fully hot-dipped galvanised end assembly system made with Stockpost quality, for high performance without the high price tag.

Featuring a heavy duty square steel Anchor Post with unique shark tooth points that cleverly cut through soil to avoid compaction for effortless driving. Each Anchor Post includes a steel cap and the Stockpost ground mark for easy fence line up at ground level.

❯ **Time saving & easy installation**

❯ **Fully hot-dipped galvanised**

❯ **Heavy duty registered design**

The Stay Assembly Kit includes a 3m brace pipe with specially designed brace cap for ease of installation; a heavy duty fire-proof base plate; and a notched threaded rod for easy tensioning.

The Stockpost End Assembly range also includes gate fittings and additional brace caps for 2, 3, and 4-way configurations.

STOCKPOST® ANTI-SINK PLATE

Stabilise steel fence posts in soft or loose soils. The surface area of the wide base guards against sinking and limits movement. Simply attach at ground level using the steel locking pin. Easily retro-fitted to existing fences.

- High strength, galvanised steel
- Large 15cm base, greater support
- Suits Stockpost and Stockpost XL and most other steel "Y" posts

FENCE WIRE
Heavily & Standard Galv.

RURAL FENCE WIRE

Whites Rural Heavily Galvanised and Standard Galvanised Rural Fence Wire are made to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

Heavily Galvanised
Heavily Galvanised to last up to four times longer than standard galvanising.

Standard Galvanised
Standard Galvanised Fence Wire and Tie Wire are economical fencing options, with a quality you can trust.

- Soft - easy to handle and tie
- Medium Tensile - ideal with prefab fencing
- High Tensile - suited to longer strains

The wire is recoiled on new machines to provide smooth & tangle free delivery off the wire spinner, saving contractors and farmers expensive down time. Produced on the latest, highest tolerance recoilers to electronically deliver full and accurate details for each coil of wire.

Meets Australian Standards

WHITES RURAL®

STIFF KNOT
Prefabricated Fencing

STIFF KNOT®
PREFABRICATED FARM FENCING

STIFF KNOT®

Stiff Knot prefabricated fencing is made in Australia on the fixed knot machine. The name Stiff Knot is trademarked to Whites and made exclusively by Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

Stiff Knot is a large fixed knot that rigidly locks line wires to one-piece vertical pickets.

Considered the strongest knot available, it provides maximum strength by absorbing impact and spreading the load.

No exposed ends which can snag livestock. Available with optional hinged apron.

SUPER STRONG
STIFF KNOT

FARM FENCING

Manufactured to Australian Standards AS 2423-2002 and zinc coated to AS/NZS 4534-2006. Made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

Heavily Galvanised Stiff Knot features high tensile 2.8mm line wires at top and bottom; 2.5mm high tensile line wires with graduated spacings; 2.5mm vertical stay wires.

AUSTRALIAN MADE WIRE FENCING

STIFF KNOT
Exclusion Fencing

WHITES RURAL®

EXCLUSION FENCING

Narrow 15cm picket spacings for smaller animals made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

Stiff Knot exclusion fencing features:

Premium Coating & Wire Grade

• Heavily Galvanised

• 2.8mm high tensile top and bottom line wires

• 2.5mm high tensile line wires and 2.5mm vertical stay wires

Continuous Vertical Pickets

• Stiff Knot features continuous vertical pickets which are locked into place to resist sagging & buckling

• Compared to hinged joint fencing, they also provide a better fence over undulating land following the contour of the ground

Optional Pre-attached Hinged Apron

• Pre-attached to the bottom line wire with a hinged joint, the apron is a 300mm section of fence laid on the ground, restricting penetration or digging under the fence

• Exclusion fencing without hinged aprons require the fencing to be forced onto the ground, placing unnecessary stress on your fence posts

• The hinged version is both faster to install and easier on the fence, giving it a longer service life

• Also referred to as a hinged footer

Pre-Stripped Roll

• Stiff Knot has the first two pickets and the last two pickets removed from every roll

• A convenient aid for faster installation around end assemblies - no need to strip picket wires

Tension Crimps

• Stiff Knot line wires include tension crimps that provide a quick visual when judging the correct tension

• When the crimp is half flattened, the tension is generally sufficient; when no crimp can be seen, then the tension in the wire is too high and needs to be reduced

Spacing Chart

Also available as apron only for fitting to existing fences.

STIFF STAY
Prefabricated Fencing

STIFF●STAY®
PREFABRICATED FARM FENCING

STIFF STAY®

Stiff Stay prefabricated fencing features a tight cross-over knot manufactured on the Stiff Stay machine. The name Stiff Stay is trademarked to Whites and is made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

The Stiff Stay knot locks the wires in place to resist buckling and sagging. The shape of the knot provides a smooth surface so it is safe and easy to use.

- ✓ **Heavily galvanised for longer life**
- ✓ **Tight cross-over knot**
- ✓ **Resists buckling and sagging**
- ✓ **Smooth, safe and easy to use**
- ✓ **High tensile line wires**
- ✓ **2.80mm top & bottom wires**
- ✓ **Available in rolls up to 500m**

HORSE FENCE

Whites Rural Stiff Stay Fabricated Horse Fence is specifically designed to be safer for horses. Made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

The tight 5cm picket spacings provide safety from hoof and leg tangling, minimising injuries to horses.

- Smooth clean knot prevents injury to horses
- Smaller aperture mesh
- Resists buckling and sagging

Made to the highest standards using premium grade wire.

Heavily Galvanised features high tensile 2.8mm line wires at top and bottom; 2.5mm high tensile line wires & 2.5mm vertical stay wires.

STIFF STAY
Exclusion Fencing
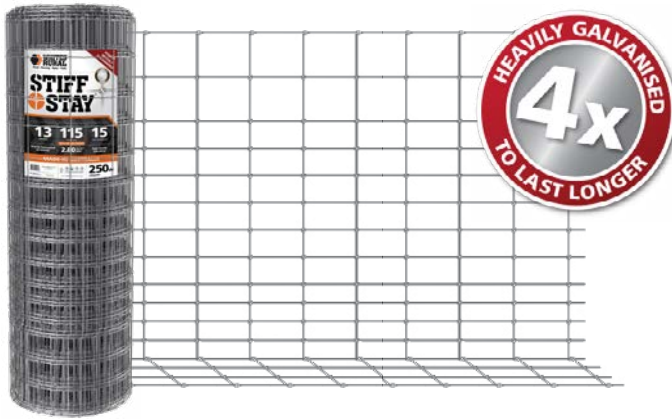

Available with a 30cm hinged apron, for an effective barrier at ground level

EXCLUSION FENCING

Narrow 15cm picket spacings for smaller animals and made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

Stiff Stay exclusion fencing features:

Premium Coating & Wire Grade

- Heavily Galvanised
- 2.8mm high tensile top and bottom line wires
- 2.5mm high tensile line wires and 2.5mm vertical stay wires

Continuous Vertical Pickets

- Stiff Stay features continuous vertical pickets which are locked into place to resist sagging & buckling
- Compared to hinged joint fencing, they also provide a better fence over undulating land following the contour of the ground

Optional Pre-attached Hinged Apron

- Pre-attached to the bottom line wire with a hinged joint, the apron is a 300mm section of fence laid on the ground, restricting penetration or digging under the fence
- Exclusion fencing without hinged aprons require the fencing to be forced onto the ground, placing unnecessary stress on your fence posts
- The hinged version is both faster to install and easier on the fence, giving it a longer service life
- Also referred to as a hinged footer

Pre-Stripped Roll

- Stiff Stay has the first two pickets and the last two pickets removed from every roll
- A convenient aid for faster installation around end assemblies - no need to strip picket wires

Tension Crimps

- Stiff Stay line wires include tension crimps that provide a quick visual when judging the correct tension
- When the crimp is half flattened, the tension is generally sufficient; when no crimp can be seen, then the tension in the wire is too high and needs to be reduced

HINGED JOINT
Prefabricated Fencing

WHITES RURAL®

HINGED JOINT

Whites Rural Hinged Joint Prefabricated Farm Fencing is made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

- Ideal for stock, boundary and internal fencing
- Flexible knot absorbs stock impact
- 2.50mm high tensile line wires

The strength of the tightly wrapped knot resists livestock pressure while remaining flexible enough to retain its structure. The hinged joint "knot" allows the fence to flex under stock pressure, absorbing the impact of livestock so the fence regains its shape.

Also available in Heavily Galvanised with 2.8mm top and bottom line wires.

FLEXIBLE KNOT

# HEAVY NETTING
Rural & Boundary Fence

RURAL NETTING

Whites Rural Heavy Netting is a versatile heavily galvanised netting for rural and heavy duty applications.

• Reverse twist construction
• Double selvedge wires for added strength
• Heavily galvanised

Netting with a 4cm aperture, 1.4mm wire diameter (often referred to as rabbit netting) & is available in varying heights. Suggested uses are:

30cm - reconditioning of existing fences, garden edging
60cm - reconditioning of existing fences, poultry
90cm - rabbit proofing, boundary fencing & tree guards
105cm - rabbit proofing, boundary fencing & tree guards
120cm - boundary and feral fencing, poultry
180cm - feral fencing, poultry and animal enclosures

Reverse twist construction

FARM MESH
Welded Mesh

WHITES RURAL®

FARM MESH HEAVY DUTY

Whites Rural Farm Mesh Heavy Duty is a 2.5mm general purpose welded mesh for heavy duty applications.

- Heavy welded construction
- Flush cut edges
- 2.5mm galvanised wire

Whites Rural Farm Mesh can be used for a variety of applications, including:

- Cages and animal enclosures • Drainage grids
- Fencing and tree guards • Trailer enclosures

FARM MESH HEAVY DUTY HEAVILY GALVANISED

A heavily galvanised version of the Whites Rural Farm Mesh Heavy Duty.

- Heavily galvanised to AS4534
- 75mm x 50mm aperture
- 2.5mm for heavy duty applications
- Heavy welded construction
- Flush cut edges

HEAVILY GALVANISED 4x TO LAST LONGER

DOG MESH HEAVY DUTY

Whites Rural Dog Mesh Heavy Duty is an ideal fencing mesh to keep larger dogs and similar sized animals within a boundary, or out of garden beds and yards.

- Graduated mesh
- Heavy welded construction
- Flush cut edges
- 2.5mm galvanised wire

Line and picket wires have been strengthened for added rigidity. The graduated mesh is available in 120cm & 180cm heights, with smaller apertures at the base to fence puppies and smaller animals.

SHEEP YARD MESH

Whites Rural Sheep Yard Mesh products are manufactured flush with the outside edge of the perimeter wires. Made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

Light: 900mm high - the top two vertical apertures are set at 150mm and the lower six at 100mm. Horizontal 250mm apertures. 5mm line wires, 4mm cross wires.

Medium: 5mm wire with vertical apertures at 100mm and horizontal apertures set at 250mm. Also produced in a 5.6mm wire for special orders.

Heavy: 5mm wire with vertical apertures at 100mm and horizontal apertures set at 200mm.

Extra Heavy: 5mm wire with vertical apertures at 100mm and horizontal apertures set at 150mm.

GENERAL PURPOSE

Whites Rural General Purpose Welded Mesh panels are manufactured in a range of sizes from wire and are produced to Australian Standards. The mesh is finished flush all around for safety and to make joining easy.

Ideal for Animal Enclosures, Cages, Trailer Enclosures, Fencing, Tree Guards, Window Guards, Safety Screens, Drainage Grids, Shelves, Racks & Partitions.

• Flush cut edges on all sides
• Medium tensile galvanised wire

TREE GUARD

Whites Rural Tree Guard is a heavy duty enclosure to protect young trees. Tree Guard is rolled before delivery and arrive ready for installation.

Made in Australia to the highest standards, exclusively from Whites Albury Manufacturing plant in regional Australia, using premium grade wire.

HORTICULTURE
Agri-Wire Trellis & Accessories

WHITES RURAL®

AGRI-WIRE® TRELLIS WIRE

Whites Rural Heavily Galvanised Agri-Wire High Tensile Trellis Wire is made in Australia to the highest standards, exclusively from Whites Albury manufacturing plant in regional Australia, using premium grade wire.

- Heavily galvanised to last up to 4 times longer
- Produced to the highest tolerance
- Smooth tangle free delivery

FARM GATES
Top Notch & Bar Gates

WHITES RURAL®

Shut the gate mate!

Nominal Size is the recommended gate opening

TOP NOTCH™ "I" STAY GATES

Whites Rural Top Notch Gates are manufactured with embedded mesh that sits inside of the gate. Along with end welds that are smooth and flush with the pipe, it makes for a stronger, safer and faster hanging gate.

Inbuilt Strength
Embedded wire mesh increases strength, improves durability.

Edge Protect
Safer for hands and livestock.
No sharp edges!

Fast Fit
No need to cut wire mesh.
Hinges fit fast!

- All pipe is a uniform 25NB
- 1145mm high, 2400-4800mm wide
- 5mm galvanised wire
- 200mm horizontal x 100mm vertical aperture
- Zinc-based coating completely covers pipe & welds
- Supplied with our "Shut the gate mate!" sign

Whites Rural Farm Gates are made to exacting standards from some of the best materials available, quality tested to ensure trouble-free fencing that is designed to last.

"N" Stay & Collared

WHITES RURAL®

"N" STAY FARM GATES

Whites Rural "N" Stay Farm Gates feature 200mm x 75mm mesh size for increased strength and protection.
With a diagonal brace running from bottom to top corner, the range is available in left and right hand options (pack of 5 - 3L/2R).

- All pipe is a uniform 25NB
- 1145mm high, 3000-4800mm wide
- 5mm galvanised wire
- 200mm horizontal x 75mm vertical aperture
- Zinc-based coating completely covers pipe & welds
- Supplied with our "Shut the gate mate!" sign

Consistently high quality gates manufactured from high quality galvanised pipe. The pipe is galvanised on the inside as well as the outside to provide maximum protection and a long working life.

FARM GATES
Blue Label
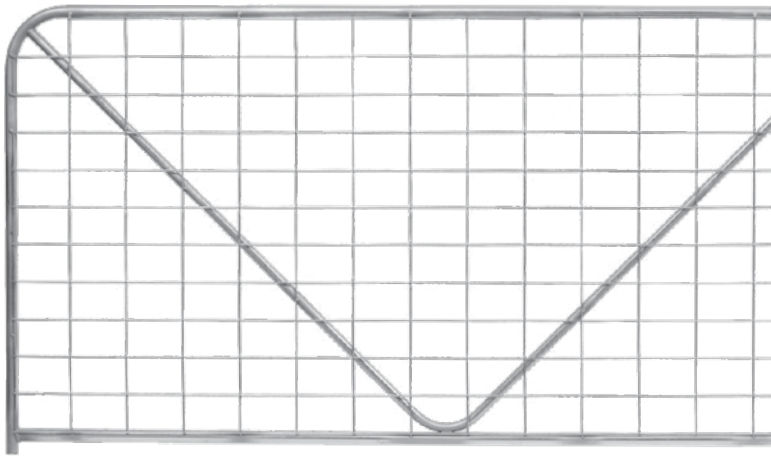

BLUE LABEL FARM GATES

Whites Rural Blue Label Farm Gates have been manufactured by Whites' Albury Manufacturing in regional Australia. Years of experience and commitment to the gate industry re-assures farmers and contractors that Whites' Albury Manufacturing gates are the right choice for a high quality gate.

All Blue Label Farm Gates feature:

- 5mm pre-galvanised wire mesh
- 150mm horizontal x 100mm vertical aperture
- 350 grade high tensile 25NB pipe
- Fully welded joints to resists joint cracking
- 1170mm high

Pipe is hot-dipped galvanised to Australian Standards. Available in "I", "II", "III" and "IIII" stays, as well as in "V", "N" and "M" stays, depending on gate length.
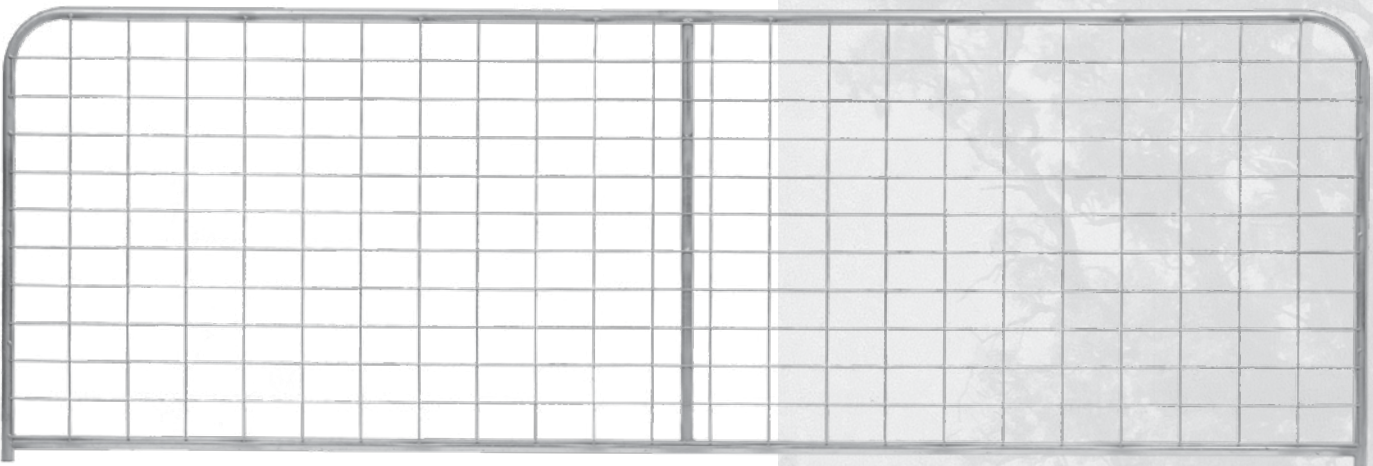

Nominal Size is the recommended gate opening

GATE FITTINGS
Individual & Specialty Fittings

WHITES RURAL®

INDIVIDUAL FITTINGS

Galvanised steel screw-in and weld-on gate fittings.

Latches

Screw-on available in drop and ring types.

Weld-on drop latch suitable for square or round posts. Can be screw-fixed. Low profile safer for animals.

Strap and Gudgeon

Top strap screw-in type.

WG34 gudgeon weld-on type.

G13 gudgeon features long plate - weld-on or screw-in.

Pins and Sleeves

Featuring pin-lock hole for added peace of mind where needed. Simply weld into place.

Each packs contains 2 pairs (2 x pins and 2 x sleeves)

Double Gate Bow

Self-locating latch for double end gates. Suits 25NB gates.

Cattle Yard Slam Latch

Tough and durable weld-on latch and striker plate for cattle yard fencing. Quick access, locks strong.

12201	800mm Post Driver	6.8kg
12110	Wire Spinner	11.5kg

CONTRACTOR GRADE

Contractor "Grip & Lift" Post Lifter

Robustly designed post lifter featuring parallel gripping surface with hardened steel grips. Heavy duty contractor grade construction.

- Hardened steel grips
- Suits most fence posts including Stockpost XL
- Galvanised steel; high tensile bolts

Contractor Post Drivers

Designed with reinforced handles and unique anti-shake handle to reduce vibrations transferred to the operator. Available in two sizes to suit standard posts and larger intermediate posts. Features include:

- Reinforced fully welded handles
- Balanced handles and head, reduces strain
- Anti-vibration collar

Three-Way Wire Spinner

Heavy Duty Three-Way Wire Spinner for smooth payout of plain & barbed wire. Zinc-plated, heavy duty steel construction. Made tough for Australian conditions.

Three different configurations make for an all-in-one tool to make fencing faster:

1. Fence Wire Spinner
   Large diameter suits all fence wire types

2. Barbed Wire Spinner
   Suitable for all types of barbed wire on reels

3. Mobile Hand-Cart
   Turn unit on side for a mobile barbed wire hand-cart

STANDARD

Whites Rural Standard range of lifter, driver and wire spinner are an economical alternative to the contractor range, available in a durable zinc-plated finish.

Post Lifter

Heavy steel construction. Simply place post in jaw and use the lever action to easily remove steel posts.

Post Driver

Heavy steel construction, weighted balanced head.

Fence Wire Spinner

Central hub is designed for smooth, easy payout, and is adjustable to reduce spin and overrun for faster payout. Includes barbed wire attachment.

STRAINERS
Straining Tools & Wire Strainers

WHITES RURAL®

STRAINING TOOLS

Whites Rural offers a wide range of both temporary and permanent wire strainers. Proven designs that are hard wearing and built to last.

Chain Strainers
Removable tool for fence straining, the smooth grip jaws hold all common sizes of fence wire while minimising wire damage.

- Made in New Zealand
- Rugged steel handles, gold passivated finish
- 1.8 metre long chain

Fabricated Farm Fencing Strainers
Used with a chain strainer, it allows for easy straining and installation of fabricated farm fencing. 1.6m - ideal for exclusion fencing.

WIRE STRAINERS

Permanent Wire Strainers
The easy solution for fence erecting, wire alignment & fence maintenance fast and easy. Attach to fence line and tighten to strain. Permanent wire strainers stay on the fence line and can be re-tightened over time to prevent wire sag.

- Strainers made in New Zealand
- Galvanised steel
- Smooth ratchet action
- Standard and insulated available

STAPLING
Cordless Impulse Power

STOCKade® Impulse®

STOCKade Impulse power staplers combine faster fencing with hose-free portability in a gas cartridge gun.

ST400i Impulse Power Stapler
The ST400i has outstanding power allowing you to fire up to 650 staples per fuel cell and in conjunction with the 3.7V Li-ion battery, you can fire 3000 barbed, divergent point staples per charge per battery.
The ST400i kit also comes with 2 batteries so you will never run out of power.

- Impulse technology
- Ergonomic design
- Adjustable depth of drive
- Top load magazine
- V-notch guide and sequential trigger system

ST400i staples and fuel cell packs, each pack contains 2 fuel cells, enough for every staple in the pack.
Available in 40mm & 50mm, with a 4mm wire diameter.

- Divergent point barbed fencing staple
- Zinc-Aluminium coating for longer life
- Superior driving and improved holding

ST315i Impulse Power Stapler
Driving 3.15mm staples at a rate of up to 2 staples per second, the unit is lightweight and comfortable and there is no need for an air compressor.

ST315i staples and fuel cell packs, each pack contains enough fuel for every staple in the pack.
Available in 33mm & 40mm, with a 3.15mm wire diameter.

STAPLING
Pneumatic & Manual

WHITES RURAL®

STOCKade® Pneumatic

The STOCKade pneumatic power stapler is designed for faster fencing and reduced manual effort.

The ST400 Pneumatic Power Stapler is engineered specifically for driving heavy-duty barbed fencing staples up to 50mm long.

- Dramatically increases stapling speed and productivity
- Aluminium alloy housing for extreme durability
- Adjustable power for high density timber

The world's only power-driven barbed staple for superior holding power.

- Available in 45mm & 50mm - 4mm wire diameter
- Heavy Zinc-Aluminium Bezinal® 2000 coating
- Divergent point staples

MaxTensor®
Wire Joining, Tensioning & Terminating

WHITES RURAL®

MAX Engineering

Exclusively patented system, *MaxTensor's* all metal construction is designed for maximum quality, reliability and ease of use when joining and tensioning wire.

MAX Usability

Ergonomically designed for effortless practicality and long lasting performance, *MaxTensor* makes joining, straining and repairing fences easier.

MAX Reliability

With millions sold globally, *MaxTensor's* patented system is industry tested and proven against the best the world has to offer. Made in the EU to strict specifications.

Exclusively distributed throughout Australia & New Zealand by Whites Rural.

Barbed Wire - *MaxTensor* Medium Joiner & Tensioner will fit up to 1.57mm barbed wire.

High Tensile Wire - *MaxTensor* is specially designed for wire with a high breaking strain.

Electric Fencing - *MaxTensor's* all metal construction means there is no break in the current.

Zinc Aluminium - *MaxTensor's* cam wedge provides a strong grip to hold Zn Al coated wire.

All Metal Construction

Joiners & Terminators for fencing wire, horticultural wire & fabricated fence

MaxTensor is a complete range of joiners, tensioners, end post terminators and tensioning tools

FENCING ACCESSORIES

Fence Post Clips - Fixes plain or barbed wire to steel fence posts. Easy to use, each pack includes application tool.

Heavily Galvanised Pre-Cut Tie Wires
Easy to work with low tensile, pre-cut 300mm lengths. A great time-saver alternative to cutting longer coils to suit. Heavily galvanised & supplied in re-usable handy packs.

Horse-Safe Fence Post Caps - Hi-visibility and UV-resistant featuring three-slot pattern to hold 5mm hot wire and/or 12-40mm electric tape. White colour for horse safety. Suit standard 'Y' or larger intermediate posts.

Standard Post Caps - Unique Fin Grip™ system, snugly fits post with no need to tie down. With side holes for fence wire to pass through.

Stay Pins - Hot-dipped galvanised pre-cut 10mm rod lengths ideal for joining timber rails and posts. Long lasting, especially in CCA treated timbers. 300mm length for thicker timber and extra support.

Also available Whites pocket-sized fencing tool.

FARM PAK™ TIE WIRES

Whites Rural Farm Pak Tie Wires are wound onto a 'no tangle' dispenser pack for ease of use. The 3kg packs are light enough to carry yet contain sufficient wire for most applications around the farm.

- Heavily Galvanised Wire
- Easy to handle 3kg packs
- 'No tangle' dispenser
- Soft easy to tie

Expect More

The market has learnt to expect more from Whites Rural for products and service built around down-to-earth Australian family values.

Our long history of continuous improvement has yielded many new and unique product offerings, always striving to provide greater value to farmers and fencing contractors in the rural market.

Since the launch of Stockpost in 2012, featuring market leading strength, Whites Rural have continued to bring greater value to the Australian market with the introduction of the Australian designed Ute Pack, followed by the ground breaking Stockpost XL and End Assembly ranges.

Whites Rural's recent acquisition of Australia's only regionally-based rural wire fencing manufacturer has strengthened its connection to rural Australia. This long-term commitment ensures Whites Rural is well poised to deliver more, so you can Expect More.
